Requirement ID	Description	Story Points	Priority	Sprint No.
1	User Registration	3	1	1
2	User Login and Logout	3	2	1
3	Password Reset Functionality	3	3	1
4	Testing of Account Management	3	4	1
5	Upload Bank CSV	5	5	1
6	Validate CSV format	5	6	1
7	Store transaction data in database	8	7	1
8	Display Uploaded Transactions	3	8	1
9	User Dashboard With Financial Summary	5	9	1
10	Testing of Bank CSV Upload and Display	5	10	1
11	Secure Storage of Financial Data	8	11	2
12	Automatic Transaction Categorization	8	12	2
12.1	Manual Transaction Categorization	3	13	2
13	Testing of Transaction Categorization	3	14	2
14	Monthly Income Analysis	5	15	2
15	Monthly Expense Analysis	5	16	2
16	Identify Reccuring Expenses	5	17	2
17	Detect Seasonal Income Patterns	8	18	2
18	Testing of Reccuring/Monthly/Seasonal Analysis	5	19	2
19	Build Monte Carlo Simulation Framework	8	20	3

19.1	Simulate Future Income Scenarios	5	21	3
19.2	Simulate Future expense Scenarios	5	22	3
19.3	Calculate Future Balance Projections	5	23	3
20	Forecast Visualization Charts	8	24	3
21	Display Forecast Confidence Intervals	3	25	3
22	Testing of Monte Carlo Simulation	8	26	3
23	App Deployment	5	27	3
24	Income Stability Score	5	28	3
25	Predicted Cash-Shortage Warnings	5	29	3
26	Emergency Fund Recommendation Calculator	5	30	4
27	Forecast-based Budgeting Recommendations	8	31	4
28	Scenario Planner (Best-case, Average, Worst-case)	8	32	4
29	Testing of Scenario and Stability Features	8	33	4
30	Financial Goals Creation	3	34	4
30.1	Goal Progress Tracking	3	35	4
31	Testing of Goal Creation and Progress	3	36	4
32	Export Forecast Report to PDF	5	37	4
33	Mobile-Responsive Interface	5	38	4
34	Testing of Remaining Features	3	39	4
